

# **STRONG PRODUCTS FOR PERFECT SURFACES**

THE PRODUCT OVERVIEW FROM JORDAN LACKE 2021

**SHOW WHAT YOU ARE ABLE TO DO!**  
**[WWW.JORDANLACKE.DE](http://WWW.JORDANLACKE.DE)**

**JORDAN Lacke is a brand of PLANTAG Coatings GmbH. Based on the strong alliance of this group, we have a very good network of subsidiaries and distributors. We ensure short ways to our customers and in-depth knowledge.**

**We always find practicable solutions for our customers. Our laboratories develop market-orientated and sustainable products using sophisticated raw materials. Innovative developments such as JORDAN CARELINE and PARQUETLINE as well as versatile effect finishes point the way to the future of finishes. We are pleased to help our customers to identify trends and to quickly implement them.**

**Based on this, we have been developing high-quality products for over 125 years. In all those years, we have established a firm place for ourselves with joineries and are proud of a variety of satisfied and long-standing PCG partners.**

**Discover on the following pages the products that have been inspiring our customers and partners for more than 125 years. Show what you are able to do with the JORDAN Lacke product world.**

## **DISCOVER JORDAN LACKE**

### **AND THE VARIETY OF OUR PRODUCT WORLD**

**BIOCIDE-  
FREE &  
VEGAN**

## NATURELINE

JORDAN Lacke becomes green with NATURELINE. This wood preservative for indoor and outdoor use does not only protect your wooden surfaces but also the environment: Effective against animal and vegetable pests.

Water-based 1-component universal filler with excellent filling power and good sanding.

1K AQUA-FILLER AF 430 (white)  
1K AQUA-FILLER AF 430-S (black)

DELIVERY BATCHES  
7 and 25 kg

### PRODUCT PROPERTIES

- + overcoatable with all our colour lacquer systems from JORDAN Lacke
- + excellently sandable
- + excellent filling power
- + perfect adhesion
- + excellent firmness on vertical surfaces

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability (in combination with AQUA-MAGIC-COLOR AMC 462) (in examination)
- + decopaint-konform

## 1K+2K AQUA MAGIC-COLOR AMC 462

Water-based 1+2 component coloured lacquer harmonizing quality demand and environmental awareness.

GLOSS LEVEL  
matt

MIXING RATIO  
10:1 with AQUAHARDENER 412  
depending on volume

DELIVERY BATCHES  
3, 10 and 25 kg

Colour shades available in RAL, Sikkens, NCS, etc

### PRODUCT PROPERTIES

- + very high light stability
- + very high opacity
- + very good sanding marks coverage
- + high abrasion and scratch resistance
- + excellent levelling properties
- + easy to use

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability (in examination)
- + DIN 53160 resistance to saliva and perspiration (in examination)
- + EN ISO 2409-GT 0 adhesive strength
- + decopaint-conform

## 1K+2K AQUA-CLEAR AC 475

Water-based 1+2 component clear lacquer with high scratch and abrasion resistance.

GLOSS LEVEL  
-10 (deep matt)  
-20 (matt)  
-30 (semi-matt)

MIXING RATIO  
10:1 with AQUAHARDENER 412  
depending on volume

DELIVERY BATCHES  
10 kg and 25 kg

### PRODUCT PROPERTIES

- + very high light stability
- + excellent transparency
- + high abrasion and scratch resistance
- + very good accentuation of the grain
- + easy to use

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability (in examination)
- + DIN 53160 resistance to saliva and perspiration (in examination)
- + EN ISO 2409-GT 0 adhesive strength
- + decopaint-conform

## 1K+2K AQUA-CLEAR LOW AC 477

NEW!

Water-based 1+2 component clear lacquer for coating off porous surfaces.

**GLOSS LEVEL**  
-10 (deep matt)  
-20 (matt)  
-30 (semi-matt)

**DELIVERY BATCHES**  
10 and 25 kg

**MIXING RATIO**  
10:1 with AQUAHARDENER 412  
depending on volume

### PRODUCT PROPERTIES

- + solid-state-reduced variant
- + especially suitable for porous woods
- + very high light stability
- + particularly high transparency
- + very good accentuation of the grain
- + easy to use

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability (in examination)
- + DIN 53160 resistance to saliva and perspiration (in examination)
- + EN ISO 2409-GT 0 adhesive strength
- + decopaint-conform

## 1K+2K AQUASTEP AS 490

Transparent, water-based stair lacquer can be used as 1-component or 2-component lacquer.

**GLOSS LEVEL**  
matt and  
semi-matt

**MIXING RATIO**  
10:1 with AQUAHARDENER 410  
depending on volume

**DELIVERY BATCHES**  
10 and 25 kg

### PRODUCT PROPERTIES

- + excellent light resistance and good grain warmth effect
- + easy handling
- + standing and suspended parts can be coated without problems
- + even levelling and high abrasion resistance

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + following DIN 68861-1, 1B chemical resistance
- + EN ISO 2409-GT 0 adhesive strength
- + resistance to cream
- + decopaint-conform

## 2K AQUA-NATUREFFEKT AN 420

Water-based 2K natural effect lacquer with raw wood effect and high resistance.

**GLOSS LEVEL**  
natural matt

**MIXING RATIO**  
10:1 with AQUAHARDENER 410  
depending on volume

**DELIVERY BATCHES**  
5 and 25 kg

### PRODUCT PROPERTIES

- + high resistance
- + very good chemical and mechanical resistance
- + dries to a raw wood-like dull matt finish
- + the obtained surfaces are smooth to the touch and resistant

### TEST STANDARDS

- + following DIN 68861-1, 1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration (in examination)
- + EN 71, part 3, free of extractable heavy metals
- + EN ISO 2409-GT 0 adhesive strength

## 1K AQUA SUN-PROTECT SP 480

**NEW!**

Serves as a very good UV protection and protects the wood against the natural yellowing process.

**GLOSS LEVEL**  
natural matt

**DELIVERY BATCHES**  
5, 10 and 25 kg

### PRODUCT PROPERTIES

- + excellent light resistance
- + very pleasant haptics
- + easy processing
- + fast drying
- + good block resistance

### TEST STANDARDS

- + Formaldehyde-free

## AQUA-CLEAN AC 460

Cleaning concentrate with good cleaning effect for machines, systems and spray guns.

**DELIVERY BATCHES**  
5 and 25 litre

### PRODUCT PROPERTIES

- + Cleaning concentrate for cleaning application devices and lines
- + for cleaning pigmented water-based lacquers
- + efficient machine cleaning after water-based coating
- + very economical

convinces with many practical benefits.**

## BEAUTY WITH LIGHTNESS

DECOLINE - THE DECOPAINT-CONFORM  
LACQUER SYSTEM FROM JORDAN LACKE

## 2K DECORBASE DB 626

Decopaint-conform 2-component sealing primer to solidify the substrate.

**MIXING RATIO**  
2:1 with DECOHARDENER 610  
depending on volume

**DELIVERY BATCHES**  
5 litre

### PRODUCT PROPERTIES

- + sealing effect
- + stabilization of loose substrate particles
- + excellent sandability

### TEST STANDARDS

- + decopaint-conform

## 2K DECO-SOFT-TOUCH DS 692

Solvent-based decopaint-conform 2-component soft lacquer.

**GLOSS LEVEL**  
deep matt

**MIXING RATIO**  
5:1 with hardener H 132 depending  
on volume

**DELIVERY BATCHES**  
3 litre

### PRODUCT PROPERTIES

- + dull matt appearance
- + agreeable, soft „rubber-like“ touch
- + an interior coating for transparent or for surfaces coated with JORA-COLOR JC 150

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + decopaint-conform

## 1K DECO-OBJECT-OIL DO 670

Decopaint-conform natural oil.

### PRODUCT PROPERTIES

- + good penetration behaviour
- + good water resistance
- + high hardness
- + excellent stability against shiny areas
- + gives the wood an especially natural appearance
- + very suitable for coating wood and furniture parts as well as parquet floors
- + white inherent colour, brightens the wood shade

### DELIVERY BATCHES

1, 3 and 10 litre

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1C chemical resistance
- + free of formaldehyde and cobalt-free
- + decopaint-conform

## 1K DECO-NATURWACHS-OIL DO 680

Decopaint-conform oil-wax combination.

### PRODUCT PROPERTIES

- + good penetration behaviour
- + good water resistance
- + the wood shade and the wood structure are particularly emphasized.
- + very suitable for coating wood and furniture parts as well as parquet floors and wooden stairs

### DELIVERY BATCHES

1, 3 and 10 litre

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1C chemical resistance
- + free of formaldehyde and cobalt-free
- + decopaint-conform

## 1K+2K DECO-OIL DO 660

VOC-FREE

VOC-free 1-component and 2-component oil based on renewable raw materials.

### MIXING RATIO

If hardener is added 10:1 with  
DECO-OIL-HARDENER 613  
depending on volume

### DELIVERY BATCHES

1, 3 and 25 litre

### PRODUCT PROPERTIES

- + good grain warmth effect, emphasizes the inherent colour of the wood
- + can be used either with or without hardener
- + very water and dirt repellent
- + the surface has an open-pore appearance with satin-like gloss
- + contains natural raw materials

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1C chemical resistance
- + VOC-free
- + decopaint-conform

## 1K+2K DECO-OIL-COLOR DO 662

SUSTAINABLE

Coloured VOC and solvent-reduced 1-component and 2-component oil, based on renewable raw materials.

### COLOURS

white, yellow, green, red, blue, brown, and black

### MIXING RATIO

If hardener is added 10:1 with DECO-OIL-HARDENER 613 depending on volume

### DELIVERY BATCHES

0,25 litre and 1 litre

### PRODUCT PROPERTIES

- + basic colours can be mixed with each other
- + many colour adjustments possible
- + no grain raise
- + the structural appearance of the wood is maintained
- + contains natural waxes
- + easy processing
- + very water and dirt repellent

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1C chemical resistance
- + VOC and solvent-reduced
- + decopaint-conform

LACQUER SYSTEM FROM JORDAN LACKE

The proven lacquer systems from JORDAN Lacke are presented:  
Reliable, fast drying and price conscious. CLASSICLINE, because  
experience delivers the best results.

## TEMPOFIX-SCHICHTER SG 17-X

Solvent-based 1-component NC finish.

### GLOSS LEVEL

SG 17-3G semi-matt, SG 17-5G matt,  
SG 17-6G deep matt

### DELIVERY BATCHES

5 and 30 litre

### PRODUCT PROPERTIES

- + high filling power
- + fast drying
- + very good sandability
- + easy processing in spraying and curtain coating applications
- + anti-slip surfaces with good filling and visually appealing

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 53160 resistance to saliva and perspiration

## COSMOLIT-SCHICHTER HS 200X

Transparent one-can lacquer  
with integrated hardener.

### GLOSS LEVEL

HS 2003 semi-matt, HS 2005 matt,  
HS 2006 deep matt

### DELIVERY BATCHES

25 litre

### PRODUCT PROPERTIES

- + easy handling
- + safe, fast processing
- + extremely durable surface quality

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration
- + PVC resistant

## PUR-SCHICHTER H 136X

2-component transparent lacquer  
on a polyurethane base can be  
used as primer and top coat.

### GLOSS LEVEL

H 1363 semi-matt, H 1365 matt,  
H 1366 deep matt, H 1367 special matt

### MIXING RATIO

10:1 with hardener H 1362 depending on volume

### DELIVERY BATCHES

5 and 25 litre

### PRODUCT PROPERTIES

- + suitable for base and top coats
- + excellent levelling properties
- + very good filling power
- + easy handling
- + achieves a highly resistant, abrasion-proof surface

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration
- + PVC resistant

## ACRYPUR-BASE COAT H 23100

### PRODUCT PROPERTIES

- + easy handling
- + very good filling power
- + excellent sanding

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + free of formaldehyde

Solvent-based, transparent 2-component primer on a polyurethane base.

### MIXING RATIO

10:1 with hardener H 132 depending on volume

### DELIVERY BATCHES

10 litre

## GIESS-COLORLUX H 37X

### PRODUCT PROPERTIES

- + lightfast
- + for curtain coating and spraying
- + long pot life (2 - 3 days)
- + recommended for application as a top coat for JORA-COLOR JC 150

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability
- + DIN 68861-1B chemical resistance
- + PVC resistant

2-component lacquer with excellent transparency and high light fastness.

### GLOSS LEVEL

H 371 glossy, H 373 semi-matt,  
H 375 matt, H 376 deep matt,  
H 376-S2 antique matt, H 377 special matt

### MIXING RATIO

10:1 with hardener H 132 depending on volume

### DELIVERY BATCHES

6 and 25 litre (H 371 only in 10 litre batches)

## JOCOPHEN-DD-LACQUER H 224X

Solvent-based 2-component transparent lacquer / top coat with good filling power and fast drying.

### GLOSS LEVEL

H 2243 semi-matt, H 2245 matt,  
H 2246 deep matt

### MIXING RATIO

2:1 with hardener H 2242 depending on volume

### DELIVERY BATCHES

5 litre

### PRODUCT PROPERTIES

- + recommended use in case of very high demands regarding hardness, resistance to water, alcohol and solvents as well as PVC resistance etc.
- + fast drying
- + good filling power

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration
- + PVC resistant
- + free of formaldehyde

## JOCOPHEN-BASE COAT H 2010

Solvent-based 2-component primer as well as a sealing primer for ingredient-rich woods.

### MIXING RATIO

2:1 with hardener H 2242 depending on volume

### DELIVERY BATCHES

5 litre

### PRODUCT PROPERTIES

- + easy processing
- + fast drying
- + excellent sandability when dry
- + thanks to good sealing properties regarding wood ingredients the lacquer is very suitable for coating exotic wood

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + free of formaldehyde

## 2K CLASSIC-EXTREME-RESIST CE 894-X

Solvent-based 2-component transparent lacquer / top coat for workpieces that are subjected to high mechanical stress indoors.

### GLOSS LEVEL

894-5 matt

894-6 deep matt

### MIXING RATIO

10:1 with hardener H 132 depending on volume

### DELIVERY BATCHES

6 and 25 litre

### PRODUCT PROPERTIES

- + anti-fingerprint
- + extremely high resistance to mechanical stress
- + suitable for coating surfaces primed with HIGH-SOLID-BASE COAT H 4500
- + suitable for coating surfaces primed with JOCOPHEN-BASE COAT H 2010
- + suitable for coating surfaces that have been coated with JORA-COLOR JC 150
- + fast drying
- + easy handling

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration
- + EN ISO 2409-GT 0 adhesive strength
- + PVC resistant

## HIGH-SOLID-BASE COAT H 4500

2-component polyurethane system with high solid content.

### MIXING RATIO

2:1 with hardener H 4002 depending on volume

### DELIVERY BATCHES

5 and 25 litre

### PRODUCT PROPERTIES

- + high filling power
- + very good sanding
- + allows an economic production flow and cost savings of up to 40 %
- + used as primer for buffable high-gloss coatings
- + very good accentuation of the grain

### TEST STANDARDS

- + DIN 4102-B1 low flammability  
(in combination with JORA-BRILLANT JB 875)

## 2K JORA-BRILLANT JB 875

Transparent brilliant 2-component high-gloss lacquer.

**GLOSS LEVEL**  
high gloss

**MIXING RATIO**  
2:1 with hardener H 872 depending on volume  
or 2:1 with hardener H 874 depending on volume  
(for fast drying)

**DELIVERY BATCHES**  
5 and 25 litre

### PRODUCT PROPERTIES

- + colourless, brilliant high-gloss lacquer
- + excellent chemical and mechanical resistance
- + with transparent surfaces it can be used as a primer and a top coat

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 4102-B1 low flammability
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration
- + EN ISO 2409-GT 0 adhesive strength
- + free of formaldehyde

## HIGH-SOLID-SCHICHTER H 4000

2-component transparent varnish on a polyurethane base for priming and final coating.

**GLOSS LEVEL**  
H 4001 glossy, H 4004 semi-matt,  
H 4005 matt, H 4007 especially matt

**MIXING RATIO**  
2:1 with hardener H 4002 depending on volume

**DELIVERY BATCHES**  
10 litre

### PRODUCT PROPERTIES

- + fast drying
- + excellent filling power
- + excellent sandability
- + creates a closed porous structure within one day
- + high-gloss finishes can be achieved with H 4001 (glossy)

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration

## JOCOPAN-ROHHOLZEFFEKTACK H 1861

2-component special lacquer with natural effect.

**GLOSS LEVEL**  
deep matt

**MIXING RATIO**  
2:1 with hardener H 1862 depending on volume

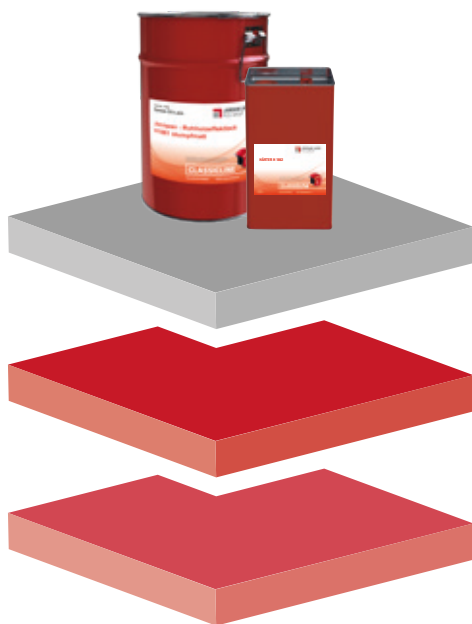

**DELIVERY BATCHES**  
5 and 25 litre

### PRODUCT PROPERTIES

- + light inherent colour
- + dries up deep matt with a natural effect
- + achieves an anti-slipping and resistant surface

### TEST STANDARDS

- + EN 71, part 3, free of extractable heavy metals
- + DIN 68861-1B chemical resistance
- + DIN 53160 resistance to saliva and perspiration

High-gloss finishes as well as deep matt natural effect finishes are trendy in the furniture and interior design field. But only a combination of both creates an impressive contrast which harmonizes perfectly.

The deep matt, transparent lacquer JOCOPAN ROHHOLZ-EFFEKTACK H 1861 offers the wood optimal protection and presents naturalness in its most beautiful form.

**Substrate material: veneered boards or solid wood**

**1. JOCOPAN-ROHHOLZEFFEKTACK H 1861**

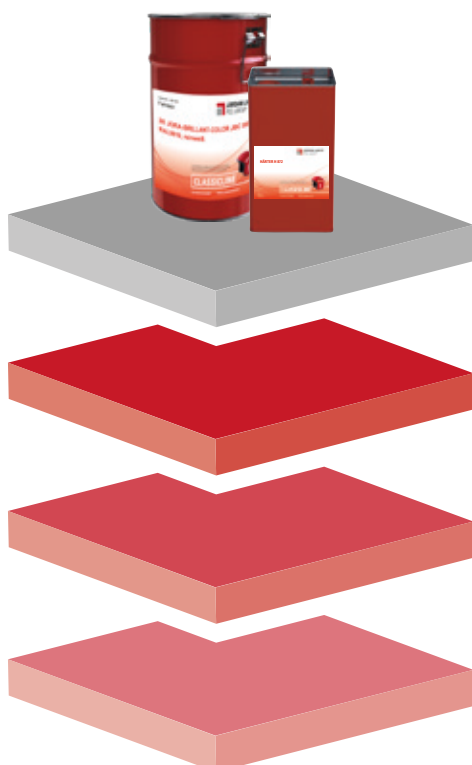

with hardener H 1862 (mixing ratio 2:1 depending on volume)

**2. JOCOPAN-ROHHOLZEFFEKTACK H 1861**

with hardener H 1862 (mixing ratio 2:1 depending on volume)

## RAW WOOD MEETS HIGH-GLOSS

JOCOPAN-ROHHOLZEFFEKTACK H 1861  
AND JORA-BRILLANT-COLOR JBC 855

A wooden surface cannot be more brilliant than that! The JORA-BRILLANT-COLOR JBC 855 can be buffed and polished and achieves perfect high-gloss.

**Substrate material: MDF board**

**1. PUR-FÜLLER F 1338**

with hardener H 132 (mixing ratio 10:1 depending on volume)

**2. HIGH-SOLID-COLOR H6000 (matt coloured lacquer)**

with hardener H 6002 (mixing ratio 2:1 depending on volume)

**3. JORA-BRILLANT-COLOR JBC 855**

with hardener H 872 (mixing ratio 2:1 depending on volume) or  
with hardener H 874 (mixing-ratio 2:1 depending on volume)

## 2K JORA-BRILLANT-COLOR JBC 855

### PRODUCT PROPERTIES

34 – 35

The CARELINE products from  
JORDAN Lacke do not only  
maintain the surfaces but they  
also ensure lasting value.

**DAZZLINGLY BEAUTIFUL**  
CARELINE - THE CARE AND CLEANING  
PRODUCTS FROM JORDAN

## JORA-CLEAN BASIC CLEANER

JCG 920

### PRODUCT PROPERTIES

- + cleaning agent for very dirty surfaces (such as floors)
- + suitable for removing old coats of water-based cleaning products
- + suitable for removing stubborn dirt on sealed parquet

Highly effective cleaning agent for surfaces that are very susceptible to soiling.

DELIVERY BATCHES  
200 ml and 1 litre

## JORA-CARE MAINTENANCE AGENT

JCW 930

### PRODUCT PROPERTIES

- + based on natural jojoba oil
- + suitable for current maintenance care of oiled surfaces
- + especially suitable for the care of furniture and lightly stressed parquet floors
- + cleans with the power of oranges

Natural care product for regular use.

DELIVERY BATCHES  
200 ml and 1 litre

## JORA-CARE WAX POLISH

JCW 940

### PRODUCT PROPERTIES

- + liquid wax mixture
- + highly economical, 1 litre is sufficient for approx. 200m<sup>2</sup>
- + suitable for the care of sealed parquet floors
- + especially suitable for the first care of parquet floors
- + ensures efficient edges protection
- + ensures a thin protective film on the surface

Easy to handle wax polish with protecting properties for sealed surfaces.

DELIVERY BATCHES  
200 ml and 1 litre

## JORA-CARE MAINTENANCE OIL

JCP 950

### PRODUCT PROPERTIES

- + suitable for the first and maintenance care of oiled surfaces
- + short drying time
- + suitable for regular freshening up of oiled surfaces

Versatile care oil with short drying time for oiled surfaces.

DELIVERY BATCHES  
200 ml and 1 litre

## JORA-CARE MAINTENANCE OIL

JCP 955

NEW!

### PRODUCT PROPERTIES

- + suitable for the first and maintenance care of oiled surfaces
- + short drying time
- + contains natural carnauba wax
- + free of VOC and cobalt-free
- + suitable for regular freshening up of oiled surfaces

Versatile, waterbased care oil with short drying time for oiled surfaces.

DELIVERY BATCHES  
200 ml and 1 litre
