

**ARTICLE:** JORDAN AQUA-CLEAN AC 460

**SYSTEM:** Water Lacquer Cleaner

## PRODUCT PROPERTIES

Careline are care and cleaning products. They are not only used for the cleaning of your surface, but also for a lasting preservation of value in all areas.

Jordan Aqua-Clean AC 460 is a cleaner specially designed for spray guns used with water-based lacquers. The cleaner is suitable for the effective removal of water-based lacquers.

## SCOPE OF APPLICATION

Suitable for the cleaning of:

- Lacquer-carrying pipes and tubes without formation of pigment deposits

The product is used for the cleaning of:

- Automatic spray guns
- Manual spray guns

## APPLICATION

The cleaner is most effective when freshly mixed with water.

The best results are obtained when the cleaner is diluted 1:4 to 1:10 with clear water. For this reason, it is not recommended to use the pure cleaner.

## STORAGE

Store material in a tightly closed container and under dry and cool conditions.

**Shelf-life:**

AC 460:

12 months

(when stored in the original unopened containers)

## SPECIAL GUIDANCE

- Do not mix cleaner with other cleaners!!
- Do not add solvent to the mixture!
- The cleaner is only partially suitable for removing dried lacquer residues.
- The cleaner is slightly corrosive to non-ferrous metals and aluminium. Systems must not be exposed to it for long periods of time.
- After cleaning, pure water or other suitable agents should be flushed into the pipes.
- Cleaning residues must be thoroughly removed with water.
